CUSTOMER INFORMATION:

1a. TABLE OF AWARDED SPECIAL ITEM NUMBERS (SINs)

SIN	DESCRIPTION
246-01	Smart Buildings Systems Integrator
246-35-1	Physical Access Control Systems (PACS)
246-35-7	Physical Access Control Systems, (PACS), FIPS 201 APL
246-42-1	Facility Management Systems
246-51	Installation of Security/Facility Management Systems Requiring Construction
246-52	Professional Security/Facility Management Services
246-60-1	Security System Integration, Design, Management, and Life Cycle Support
246-60-5	Security System Integration, Design, Management, and Life Cycle Support (includes svcs covered under 246-60-1 that are to be performed in conjunction with products/systems under 246-35-7)
246-1000	Ancillary Supplies and/or Services for Security, Alarm & Systems
426-4S	Surveillance Systems, Wearable Body Cameras, Vehicular Video

246-1000 Security, Alarm & Signal Systems - Ancillary Supplies and/or Services - Ancillary supplies and/or services are support supplies and/or services which are not within the scope of any other SIN on this schedule. These supplies and/or services are necessary to compliment a contractor's offerings to provide a solution to a customer requirement. This SIN may be used for orders and blanket purchase agreements that involve work or a project that is solely associated with the supplies and/or services purchased under this schedule. This SIN EXCLUDES purchases that are exclusively for supplies and/or services already available under another schedule.

Special Instructions: The work performed under this SIN shall be associated with existing SIN(s) that are part of this schedule. Ancillary supplies and/or services shall not be the primary purpose of the work ordered, but be an integral part of the total solution offered. Ancillary supplies and/or services may only be ordered in conjunction with or in support of supplies or services purchased under another SIN(s) of the same schedule. Offerors may be required to provide additional information to support a determination that their proposed ancillary supplies and/or services are commercially offered in support of one or more SIN(s) under this schedule.

246-60-1 Security System Integration, Design, Management, and Life Cycle Support – SUBJECT TO COOPERATIVE PURCHASING - Services involving the security integration and/or management discipline which supports security products or systems through their life cycle. Security Systems integration and design services may include, but are not limited to those associated with the design, test, production, fielding, sustainment, improvement of cost effective security and/or protection systems including the eventual disposal or salvage of these systems. Services may include studies and analysis such as - risk assessment, threat evaluation, and assessment (including resultant deliverables). Contractors may provide security or protection expertise in the pre-production or design phase of security or protection systems to ensure that the system can be supported through its life-cycle and that the infrastructure elements necessary for operational support are identified and acquired. These services may continue through the life cycle of the system or product and may include guidance, assistance and/or operational support. This includes all necessary security management elements.

Services providing the best practices, technologies and methodologies to plan, design, manage, operate and maintain secure and protected systems, equipment, facilities and infrastructures. Agency orders may include complete turnkey operations, maintenance and support services, or components thereof as needed to ensure secure and protected systems involving personnel security, physical access, and information security, and reduce life cycle costs. Contractor personnel carrying out these activities, to include management and operating staffs, are not involved with or responsible for the core

business of the customer agency placing the order.

Services providing for the design, coding, integration, testing, deploying, repair and maintenance of integrated security systems. Includes training across all platforms, enterprise wide, for the complete life cycle of the system.

Note: This SIN does not include services related to physical access control that meet the requirements of the GSA FIPS 201 Evaluation Program. Services meeting those requirements can be found under SIN 246-60-5.

246 60 5 Security System Integration, Design, Management, and Life Cycle Support – SUBJECT TO COOPERATIVE PURCHASING

Includes any services covered under 246 60 1 that are to be performed in conjunction with products/systems under 246 35 7 and are in compliance with current GSA FIPS 201 Evaluation Program requirements. The GSA FIPS 201 Evaluation Program define service categories for the FIPS 201 APL as required to implement the mandates in [OMB Memorandum M-05-24](#) and [OMB Memorandum M-06-18](#). Categories are defined by the Program to serve the needs of the federal enterprise in an inclusive manner to the various standards, requirements, interoperability and conformance as applied within the execution of HSPD-12.

Technical evaluation criteria are:

- Companies shall be listed at IDManagement.gov
- Companies shall have at least one Certified System Engineer ICAM PACS (CSEIP) listed at IDManagement.gov

1b. LOWEST PRICED MODEL NUMBER AND PRICE FOR EACH SIN:
(Government net price based on a unit of one)

<u>SIN</u>	<u>MODEL</u>	<u>PRICE</u>
------------	--------------	--------------

See Pricing

1c. HOURLY RATES: (Services Only)

See Pricing

2. MAXIMUM ORDER*: SIN 246-01 is \$1,000,000; for 246-35-1 and 246-35-7 is \$100,000; for 246-42-1 and 246-1000 is \$150,000, and for 246-51, 246-52, 246-60-1, 246-60-5, and 426-4S is \$200,000/per SIN, per Order

*Ordering activities may request a price reduction at any time before placing an order, establishing a BPA, or in conjunction with the annual BPA review. However, the ordering activity shall seek a price reduction when the order or BPA exceeds the simplified acquisition threshold. Schedule contractors are not required to pass on to all schedule users a price reduction extended only to an individual ordering activity for a specific order or BPA.

3. MINIMUM ORDER: None

4. GEOGRAPHIC COVERAGE: Domestic, 50 states, Washington, DC, Puerto Rico, US Territories and to a CONUS port or consolidation point for orders received from overseas activities or give details as negotiated

5. POINT(S) OF PRODUCTION: Various

6. DISCOUNT FROM LIST PRICES: GSA Net Prices are shown on the attached GSA Pricing and the IFF has been included.

7. VOLUME DISCOUNT: Additional 1/5% on orders of \$100K+ and Additional 1% on orders of \$250K+.

8. PAYMENT TERMS: Net 30 Days
- 9.a Government Purchase Cards are accepted at or below the micro-purchase threshold.
- 9.b Government Purchase Cards are accepted above the micro-purchase threshold.

- 24b. Section 508 Compliance for EIT: as applicable
- 25. DUNS NUMBER: 188632447
- 26. NOTIFICATION REGARDING REGISTRATION IN SYSTEM FOR AWARD MANAGEMENT (SAM) DATABASE: Contractor has an Active Registration in the SAM database.

1 Labor Category Descriptions

Project Manager

Minimum/General Experience: Eight (8) years' experience in the initiation, planning, implementing, controlling, and closing of major or high risk facility security system projects that require special attention, expertise, and training.

Functional Responsibilities: Coordinates and monitors the scheduling, pricing, and technical performance of company security systems. Responsibilities also include aiding in the negotiation of contracts and contractual changes, and coordinating preparations of proposals, plans, specifications, and financial conditions of contracts. Ensures adherence to master plans and schedules. Develops solutions to program problems. Ensures projects are completed on time and within budget. Acts as advisor to project team regarding projects, tasks, and operations. Single authorized point of contact with the Government Contracting Officer, Contracting Officer's Representative, Government personnel and subcontractor representatives and is empowered to commit resources and to task subcontractor support.

Education: Bachelor's degree in Business, Engineering, or related discipline and eight (8) years of related experience or Associate's Degree in Business, Engineering, or related discipline and ten (10) years managerial or business related experience or High School diploma and twelve (12) years of related experience.

Senior Security Systems Engineer

Minimum/General Experience: Ten (10) years' experience designing, developing, and recommending complex security system solutions.

Functional Responsibilities: Provides technical engineering services for the support and installation of security systems and solutions. Interfaces with client in the strategic design process to translate security and business requirements into technical designs. Configures and validates security systems and tests security products and systems to detect security weakness. Performs duties on tasks that require expertise in the following: physical security analysis of facilities, emergency preparedness, security assessment/risk design analysis and continuity of operations, planning, and disaster recovery.

Education: Master's degree in Electrical Engineering, Computer Science or related discipline and ten (10) years of related experience or Bachelor's degree in Electrical Engineering, Computer Science, or related discipline and twelve (12) years of related experience.

Junior Security Systems Engineer

Minimum/General Experience: Six (6) years' experience designing, developing, and recommending security system solutions.

Functional Responsibilities: Provides technical engineering services for the support and installation of security systems and solutions. Interfaces with client in the strategic design process to translate security and business requirements into technical designs. Configures and validates security systems and tests security products and systems to detect security weakness. Performs duties on tasks that require expertise in the following: physical security analysis of facilities, emergency preparedness, security assessment/risk design analysis and continuity of operations, planning and disaster recovery.

Education: Bachelor's degree in Electrical Engineering, Computer Science, or related discipline.

Security Engineering Technician III

Minimum/General Experience: Six (6) years' experience implementing and connecting various security and communication systems. Performs routine maintenance on all applicable equipment and assembles, installs and disassembles communication equipment such as: computer and security systems, surveillance systems and video hardware.

Functional Responsibilities: Maintains and support electronic security systems with limited direction. Performs routine support of installation and integration activities. Works from system design documents, CAD drawings, facility layouts and riser diagrams. Responsible for the testing and turnover of systems to the client. Provides preliminary training on systems operation and various administrative functions.

Education: Associate's Degree in Engineering, or related discipline and six (6) years of related experience or High School diploma and eight (8) years of related experience.

Security Installation Technician III

Minimum/General Experience: Four (4) years of practical experience installing security system's equipment.

Functional Responsibilities: Performs complex tasks from detailed procedures and may include, but are not limited to, installs, troubleshoots, repairs and maintains various security and communications systems.

Education: High School diploma.

CAD Specialist

Minimum/General Experience: Five (5) years' experience in producing drawing files with Computer Aided Design (CAD) software. Personnel prepare various drawings of structures and equipment systems derived from layouts and sketches.

Functional Responsibilities: Performs complex drafting assignments that require the application of industry standard drafting techniques. Supervises and performs layouts, drawings and designs to specifications using CAD software. Review supporting documentation and specifications working in concert with Project Manager and Systems Engineer.

Education: Associates Degree in Drafting or Electrical/ Electronic Engineering or other engineering discipline and completion of a certified CAD training program.

Technical Writer

Minimum/General Experience: Five (5) years of work experience, two of which must be specialized experience writing and producing technical materials and using Microsoft Office software products to develop technical reports.

Functional Responsibilities: Works independently or under general supervision. Writes, edits, and rewrites material of a technical nature from oral discussion or rough notes. Possesses excellent writing skills. Organizes and writes technical materials. Prepares user manuals and user guides and produces technical documentation for presentations and training sessions. Communicates information clearly, concisely, and accurately and is familiar with computer-related terminology.

Education: Bachelor's degree.

Project Controller

Minimum/General Experience: Two (2) years of experience monitoring and coordinating projects.

Functional Responsibilities: Coordinates small to mid-size security projects, assisting project management personnel ensuring company resources are utilized effectively. Compiles project status reports, coordinates project schedules, manages project meetings, and identifies and resolves technical problems. Coordinates project activities and ensures all project phases are documented.

Education: Associate's Degree in Business, Engineering, or related discipline and two (2) years of business related experience or High School diploma and four (4) years of business related experience.
